Job or Kind of Work	Employer	Dates of Employment	Hours Per Week
---------------------	----------	---------------------	----------------

Please attach a letter of recommendation from a teacher in the STEM subjects and include a transcript of your subjects that should demonstrate a concentration in math and science subjects.

If selected, the initial awards will be announced at the Awards Ceremony at OHS in May and sent to the college of choice in the summer prior to entrance. In the following three years, the student must have a certification that he/she has maintained a 3.5 on a 4.0 scale the prior year in order to receive the scholarship award. Should the student fail to maintain a 3.5 in any year, the scholarship becomes null and void from that point forward.
